

Ohmni

The Technical Partner for Marketing Teams

www.ohmni.tech

We run your marketing tech stack.

You own every piece of it.

Ohmni is one senior technical partner for B2B marketing teams. We build and operate your website, email, CRM, analytics, and SEO as one system, so changes ship in days, not sprints, and your team stays on strategy instead of chasing tools and tickets.

WHAT WE RUN

WEBSITE

A fast, composable site your team edits and publishes in minutes. No deploy, no ticket.

CRM + FORMS

Every lead lands in your CRM with follow-up sent inside 60 seconds.

SEO + AI SEARCH

Content structured for Google, ChatGPT, and Perplexity, monitored quarter over quarter.

EMAIL

Lifecycle flows connected to your CRM, built and operated end to end.

ANALYTICS

First-party tracking that ad blockers cannot erase. Numbers you can take to a CFO.

ONE OPERATOR

One accountable partner across the whole stack. No agency handoffs, no vendor gaps.

HOW IT WORKS

1

AUDIT

We review your site and stack and hand you a prioritized list. Free, and yours either way.

2

MIGRATE

The first weeks move you onto the system: site, analytics, forms, and follow-up.

3

OPERATE

A monthly allowance of shipped deliverables: pages, integrations, SEO fixes, experiments.

You own everything, from day one

Every account and every line of code is created under your ownership. Tools are billed to you at cost, no markup. If we ever part ways, you keep the site, CMS, CRM, analytics, and email platform, and we hand over a runbook. Exit friendly is not a promise. It is how the system is built.

WHAT WE NEVER DO

NO MARKUP

Your vendors bill you directly. Our incentive is running the stack well, not reselling it.

NO HELD ACCOUNTS

Everything is created under your ownership with us invited in.

NO HOURLY BILLING

Hours reward slowness. Deliverables reward shipping.

NO LOCKED DOORS

After the initial term you stay because it works, not because leaving hurts.

Engagements start at \$5,000 per month. 6-month minimum, then month to month. Full tiers at www.ohmni.tech/pricing.
